FISH CULTURE.—There has been much said and done about fish in the waters of the Potomac for forty years. Up to 1850 the offal of shad and herring at the fish wharf was thrown overboard. In two or three days millions of young fish, supposed to be young shad and young herring, made their appearance around the fish wharf. Do they appear now? No. In 1856 an old fish woman (I mean one who old fish at Fishtown) had a small shanty where she went to when her work was done and washed her knife and hands in a barrel of water adjoining her shanty. In a few days her barrel was full of young fish. A respectable man of the county of Alexandria told me that he came to the fish wharf some years ago, bought a load of fish offal and carried it out on his farm. A heavy cloud was coming up so he thought it best to throw out or dump it and make tracks for home. He did so near a little ravine in his field. Some days after the rain he went down to see after the offal. Nearly all had been washed away and in the little pool of water near where the offal had been deposited, thousands of small fish were to be seen. Where did they come from? In a field there was no running stream, but they were there. Some wisecracks in Washington had a little communication in your paper a few days ago about fish. What does he know about fish? Well, he says and sells them. That is all he knows. I think John T. Armstrong, who knows something about fish for fifty years past, will bear me out in my ideas. I am speaking of things I have seen and know.

B. & O. R. R.—At a meeting of the directors of the B. & O. R. R. Co., yesterday, a report was adopted recommending the acceptance of the act passed at the late session of the Legislature, providing for an adjustment and final settlement by agreement of all pending contracts and litigation between the Company and the State, which is to be submitted to a general meeting of the stockholders.

During the litigation between the State and the Company, in regard to the gross receipts for passenger tax, the Company passed five semi-annual dividends on the stock of the Washington branch of the road, and a resolution was adopted yesterday, that so soon as all the arrangements required be perfected, to give to the act of the Assembly aforesaid full effect, according to its tenor, there shall be declared five semi-annual dividends of five per cent. on the stock of the Washington branch.

It was also resolved that a dividend of four per cent. be declared on the capital stock of the main stem for the half year ended the 31st of March ult., payable on the stock of the Company on and after the 15th of May proximo, and that the transfer books be closed on the 17th of April instant, and remain closed until the 15th of May proximo.

FRIGHTFUL DEATHS ON THE RAIL.—A horrible accident occurred at Syracuse, N. Y., yesterday morning, resulting in the death of a lady named Ellen Murphy, of Clyde, N. Y., aged forty-five, and her niece, Miss Nellie Brossell, aged eighteen, of Salina, New York. The Detroit special train was late in arriving at East Syracuse, and a flying signal was made from track No. 1 to track No. 3. The unfortunate ladies got off the train and started across passenger track No. 2. Just at this time the second mail train from the east, with double header came along at frightful speed. The engineer blew his whistle and Miss Brossell suddenly became aware of her danger. A quick movement on her part would have saved her life, but she was ahead of her brother, rushed to her aunt's rescue, and seizing her by the arm endeavored to pull her from the track. The engine struck them both hurling them into the air a distance of nearly one hundred feet, and they both fell a mangled mass of flesh and bone.

The Richmond Plan.

The Conservative Executive Committee of Richmond has acted upon the following plan of conducting the primary term in May, as stated by the Dispatch of that city:

Whereas in all elections none but qualified voters are authorized to vote; and whereas it is deemed both inexpedient and unwise to adopt any other principle to govern any primary election that may be ordered; and whereas no person is a qualified voter unless he is duly registered and has paid his capitation tax for the preceding year:

Resolved, That in the primary election, which is hereby ordered to be held on the 7th day of May, 1878, no person shall be allowed to vote who is not a white Conservative, and who is not a qualified voter on the said 7th day of May, 1878, by being both duly registered and having paid his capitation tax for the preceding year; of which facts the judges of said primary election must be satisfied by written or printed testimony.

Resolved, That any Conservative desiring to become a candidate for any of the various offices to be filled at the May election, and wishing to submit his name to the decision of the primary election, shall so notify the chairman of the City Conservative Committee on or before the 2nd day of May, 1878, and at the time of such notification shall pay to the said superintendent the sum of \$— except candidates for Common Council and Board of Aldermen and Justices of the peace, who shall each pay \$—, which money shall be used towards defraying the expenses of said primary election. * * *

The names of all such persons shall be printed in alphabetical order on tickets of uniform size, and no ticket, except that printed by order of this committee, shall be received by the judges of election at said primary election.

Resolved, That the rules that governed the last primary election, as to manner and places of voting, counting of votes, making returns, declaring result, &c., shall govern the approaching primary election, except that the Board of Election Commissioners shall consist of six members of this committee—one from each ward—to be appointed by the chair, with the right of appeal to this committee.

Resolved, That the persons receiving the highest number of votes at said primary election for any particular office or position shall be declared the conservative nominees for such particular office or position.

Under the rules referred to and adopted the voting will be viva voce, and at once placed on the record, and the names of the voters will be there. The polls will be opened at sunrise and closed at 8 p. m.
